The purpose of the Barrow Nursing Symposium is to provide an opportunity for neuroscience nurses and allied health professionals to acquire new knowledge and promote excellence in patient care.

PROGRAM OBJECTIVES:
1. Describe how the pathophysiology, signs, symptoms, and treatments have affected various White House residents who had neuroscience issues.
2. Describe the etiology and management of fever in critically ill patients.
3. Compare and contrast current healthcare economics with care delivery systems.
4. Illustrate the patient safety mechanisms that may be provided by the use of checklists.
5. Differentiate the types of headaches and current treatment modalities for migraine headaches.
6. Demonstrate effective methods the nurse can employ to decrease stress and increase well-being.
7. Explain the use of deep brain stimulation to control side effects of illnesses such as Parkinson’s disease.
8. Discuss strategies to balance pharmacological and non-pharmacological methods of pain management.
9. Explore the diagnosis and treatment of severe head injuries.
10. Describe the neurological experience from the patient’s perspective.

TOUR THE BARROW NEUROSCIENCE TOWER:
Sign up for a tour of the Barrow Neuroscience Tower when you register for this Symposium. Attendees will visit the Neuro Acute floors, Neuro ICU, the Epilepsy Monitoring Unit, and Gamma Knife.

BASKETS FOR NURSING RESEARCH:
Plan to take part in the popular raffle available on Wednesday and Thursday. The baskets have been generously donated by nurses and doctors who support nursing research at the BNI. All funds will support the Robert and Helen Novascone BNI Nursing Research Fund. Tickets will be available for purchase at the registration desk. Checks and credit cards accepted.

ACCESS YOUR COMPLIMENTARY CONCIERGE SERVICE TODAY.
For more information and area recommendations to dining reservations and transportation arrangements, contact Eric McEuen at 602.406.4949, by email at concierges@dignityhealth.org.

DRESS
Dress for all sessions is business casual. Temperatures in Phoenix in October average from 89 degrees during the day to 65 degrees at night. Please keep in mind that meeting room temperatures vary, so wear layered clothing to ensure your comfort.

DINING
Phoenix is home to some of the world’s finest chefs and the best restaurants. Phoenix offers something for everyone—from the fine dining of downtown Phoenix to the Mexican, American, and international cuisine of Scottsdale. For more information, visit www.azcentral.com/restaurants.

SHOPPING
There are many services to shop and dine in Phoenix. From the Biltmore Fashion Park to Kierland Commons, Desert Ridge Marketplace, Scottsdale Fashion Square, Chandler Fashion Center, and countless smaller boutiques throughout the state.

FROM HARDWARE TO COMPASSIONATE CARE IN NEUROSCIENCE NURSING
The annual Nursing Symposium is an event to provide nurses with valuable information and advanced education in the field of neuroscience nursing. The event features sessions on advances in neuroscience, patient care, and ethical dilemmas.

Objectives:
1. Identify the components that cause ethical dilemmas and moral distress in the neuroscience nurse.
2. Define palliative and hospice care in the continuum of patient care.
3. Describe the neurological experience from the patient’s perspective.
