PurPOSE:
1. To describe the impact that implementing outcomes related to evidence-based practice initiatives, monitoring and trending data, and innovative practice
   by contacting clinical research.
2. To discuss new advances in modern healthcare practice, including the use of social media.
3. To compare and contrast new anticoagulants with traditional medications, i.e. warfarin.
4. To describe the effects of anticholinergic medications on the elderly.
5. To describe perils and pitfalls of healthcare professionals and social media.
6. To discuss how electronic health records have impacted patients and patient care.
7. To list potential barriers to the provision of basic nursing care practices in your area of practice and potential strategies to address them.
8. To illustrate the indications for neuropharmacological treatments.
9. To discuss how to move beyond implementation and conduct clinical research that is of interest to clinicians.
10. To identify selected data sources such as institutional aggregate data, nurse-sensitive outcomes data, and clinical variables of interest.
11. To discuss the nurse’s role in evaluating outcomes related to evidence-based practice initiatives, monitoring and managing data, and advancing excellence in patient care.

PROGRAM OBJECTIVES:
1. To describe the degree of injury related to avoidable error.
2. To define first-responder actions and sequelae of brain injury.
3. To discuss free electronic health records for impacted patients and patient care.
4. To describe perils and pitfalls of health care professionals and social media.
5. To compare and contrast new anticoagulants with traditional medications, i.e. warfarin.
6. To discuss the effects of anticholinergic medications on the elderly.
7. To describe pharmaceutical treatment options for delirium and dementia.
8. To compare and contrast new anticoagulants with traditional medications, i.e. warfarin.
9. To identify potential barriers to the provision of basic nursing care practices in your area of practice and potential strategies to address them.
10. To list potential barriers to the provision of basic nursing care practices in your area of practice and potential strategies to address them.

RUNDOWN DISCUSSIONS:
Join your nursing colleagues in lively and thoughtful discussions on nursing! The goal of the roundtable discussions are to provide an opportunity to network and learn from one another in a casual, relaxed setting. A variety of topics will be available to attendees during the lunch on Wednesday. We look forward to learning with you!

RECEPTION: HEALING GARDEN
Join us Wednesday afternoon for a reception in the Healing Garden. Attendees will have the opportunity to meet Barrow Nursing Leaders, network with other professionals in the field, and mingle with international experts in a casual, garden setting.

TOUR THE BARROW NEUROSCIENCE TOWER:
Tour the Barrow Neuroscience Tower and network with colleagues, and peers with international experts in a casual, garden setting.

PHARMACOLOGY CREDITS AVAILABLE DURING POST CONFERENCE:
Friday, October 25, 2013 - High Touch High Tech: Keeping Paces with Pharmacology.

The joint conference will feature presentations on drug classifications and pharmacological treatments for delirium, dementia, and behavioral disorders related to chemotherapy. The focus will be on new treatments for the treatment of pain and nausea, including the comparison of the standard and new anticonvulsant therapies for the prevention of various forms of seizures. We will provide insight to the barriers on the use of these pharmacological therapies and the related implications of care.

** 3.5 Contact Hours will be awarded for Pharmacology

2013 BARROW NURSING SYMPOSIUM

32nd ANNUAL BARROW NEUROLOGICAL INSTITUTE NURSING SYMPOSIUM

WEDNESDAY - FRIDAY
OCT 23-25
REGISTRATION & AGENDA ONLINE!

SYMPOSIUM LOCATION:
Barrow Neurological Institute
Leonard Goldman Auditorium
350 West Thomas Road
Phoenix, Arizona

3rd Floor - Suite 132
7th Avenue - Main Medical Building
Catalina Drive - Radiation Therapy Building
Lonnie & Muhammad Ali McAuley Research Center
3rd Avenue Bridge Neuroscience Tower

ST. JOSEPH’S AND BARROW

2013 BARROW NURSING SYMPOSIUM

PROGRAM OBJECTIVES:
1. Describe the effects of anticoagulant therapies for the prevention of venous thromboembolus on daily practice and potential strategies to offset them.
2. Identify potential barriers to the practice of basic nursing care practices in your area of practice and potential strategies to address them.
3. Discuss the degree of injury related to weapon caliber.
5. Discuss the perils and pitfalls of health care professionals and social media.
6. Evaluate augmentative therapy approaches to patient rehabilitation with advances in technological support.
7. Compare aspects of augmentation to patient rehabilitation with advances in technological support.
8. Compare neuropharmacological components of augmentation to patient rehabilitation with advances in technological support.
9. Describe the effects of anticholinergic medications on the elderly.
10. Discuss the importance of preventing negative outcomes for patients.
11. Describe the degree of injury related to weapon caliber.
12. Discuss the effects of anticholinergic medications on the elderly.
13. Discuss pharmacological treatments for delirium and dementia.
14. Compare and contrast new emerging medications with traditional medications, i.e. anticholinergics.
15. Define essential monitoring and support required for neuroscience nurses with regard to medications.

ROUNDTABLE DISCUSSIONS:
Join your nursing colleagues in lively and thoughtful discussions on nursing! The goal of the roundtable discussions are to provide an opportunity to network and learn from one another in a casual, relaxed setting. A variety of topics will be available to attendees during the lunch on Wednesday. We look forward to learning with you!

RECEPTION: HEALING GARDEN
Join us Wednesday afternoon for a reception in the Healing Garden. Attendees will have the opportunity to meet Barrow Nursing Leaders, network with colleagues, and mingle with international experts in a casual, garden setting.

TOUR THE BARROW NEUROSCIENCE TOWER: Sign up for a tour of the Barrow Neuroscience Tower when you register for the Symposium. Attendees will visit the Nance Acute Floors, Race 5CC, the Epilepsy Monitoring Unit and Courtyard Units.

PHARMACOLOGY CREDITS AVAILABLE DURING POST CONFERENCE:
Friday, October 11, 2013: High Touch: High Tech: Keeping Pace with Pharmacology
Join us for the presentation of a drug classification and pharmacological treatments for delirium, dementia, and behavioral disorders related to neurocognitive disorders. The presentation will focus on pharmacological treatments for the treatment of delirium and dementia. A comparison of the standard and nonstandard treatments for the prevention of various forms of delirium and dementia will provide insights to the learner on these pharmacological therapies and the related implications of care.

*** 3.5 Contact Hours will be awarded for Pharmacology
A refund, less $75.00 processing fee, will be made for cancellations prior to September 27, 2013.
Wednesday, October 23, 2013
6:05 Opening
6:08 Registration and Breakfast
6:15 The Barrow Women’s Board Keynote
10:00 Lunch with Roundtable Discussions
1:00 Evening Session: Healing Garden

3:15 Propensity for Violence after Traumatic Brain Injury
4:00 To Be or Not to Be… Choosing the Best Antiepileptic Drug
4:15 All… Choosing the Best Antiepileptic Drug

Thursday, October 24, 2013
6:05 Registration and Breakfast
6:08 Opening
6:15 Women & Men: A Cry for Collaboration
9:15 Myths & Reality: The Other Side of the Rail: 393 Days in the Life of a Mother
11:45 Lunch
1:15 A High Tech Journey

2:45 Propagation of Cranial Nerves
3:15 Opening Remarks
4:00 Likely Women’s

Friday, October 25, 2013
7:00 Registration
7:05 Opening Remarks
7:15 Symposium for Educational Professionals
8:00 Panel of Expertise
8:30 Dinner and Dance Reunion
9:00 Tour of the Barrow Neurological Institute

Registration Form

Name______________________________
City______________________________ State___________ Zip________________________
Phone______________________________ FAX________________________

I would like to take the Barrow Neurological Institute Tour of the Barrow Neurological Institute.

I authorize Barrow Neurological Institute to charge the amount determined by the Barrow Neurological Institute.

Verifiable: To Be or Not to Be… Choosing the Best Antiepileptic Drug

1. Please check all that apply:

- Single
- Multiple Antiepileptic Drugs

2. This fee is for

- Barrow Neurological Institute Visiting Healthcare Professionals (Thurs., Oct. 24 ONLY)
- Barrow Neurological Institute Early Registration
- Barrow Neurological Institute Late Registration

3. Registration fee includes cyber café, daily continental breakfast, lunch and Wednesday’s Welcome Reception.

4. On-line registration available at www.barrowneurology.com/registration/conferences

5. Check or money order payable to: St. Joseph’s Hospital & Medical Center (NO CASH: please check or money order for Good Friday Lunch)

6. Visa, MasterCard, American Express

7. Registration includes general admission to the conference and optional meeting packages.

8. No refunds; no replacements

9. This program is offered in cooperation with the National Brain Aneurysm Center and the Davis Brain Aneurysm Collaboration.

10. This program is offered in cooperation with the Davis Brain Aneurysm Collaboration.

FAAN, FPCN

Virginia Prendergast, PhD, NP-C & Chelsea Simlett
Major Grace Stagner
Joanne H. Vailani, PhD, RN, ACNP-BC, FAAN, FPCN

10:30 am The Evolution of the Neurological Nurse: From the Muscular Spinal Cord Injury Model to the Acute Traumatic Brain Injury Model
Lenka Kopacevic, RN
Judd Shaft, RN, BSN, FVN

11:00 am On the Other Side of the Rail: Embracing Dual Disclosure Across Campuses: One Park, Two Experiences
Jana M. Sullivan, MSN, RN, ACNP, CCRN, FNP
Barrow Neurological Institute

12:45 pm Lunch

2:45 pm Wearing the "Behave" in Behavior Management: Evidence to Practice
Lenka Kopacevic, RN
Judd Shaft, RN, BSN, FVN

4:15 pm Reproductive Healing Center

Friday, October 25, 2013 - POST CONFERENCE - HIGH TOUCH & HIGH TECH: SPEED TRACK WITH PHARMACOLOGY
7:30 am Registration
8:00 am Opening Remarks
8:05 am Drug, Delirium, Dementia: How to Differentiate them with Confidence
Virginia Prendergast, PhD, MP-C
Barrow Neurological Institute

8:40 am Break

8:55 am Caring with this Flow: Non-Anticoagulants
Zuleyka Adely

9:10 am Putting the "Flame of Excellence" into Behavior Management
Gary Kittel, MPH, RN
Kerry Knievel, MSN, RN, NP-C

10:25 am Break

10:40 am gardens in the Brain: Aflibercept for Treatment of Vascular Disease
Barrow Neurological Institute

1:30 pm Focused Discussions: Myths & Reality
Lenka Kopacevic, RN
Joanne V. Hickey, RN, ACNP-BC, FAAN

1:45 pm Health Literacy: Speaking in Touch
Kim Voss, MPA, MPH

2:15 pm Community Engagement and Daily Intervention
Jara Thompson, WCN, MCGS, SLP
St. Joseph's Hospital and Medical Center

3:15 pm More Than Meets the Eye: Assessment of Cerebral Nerves
Gary Kittel, MPH, RN

4:00 pm Adjourn

CONFERENCE PLANNING COMMITTEE

Elizabeth H. Prendergast, PhD, MP-C Director, BRN Advise Practice Learning Barrow Neurological Institute

Theresa Backman, MSH, RN, CNLS, CNS Clinical Nurse Specialist Barrow Neurological Institute

REGISTRATION FORM
BARROW NURSING SYMPOSIUM

Purposes:
The purpose of the 32nd Annual Barrow Nursing Symposium is to provide an opportunity for neuroscience nurses and allied health professionals to gain new knowledge, network with colleagues, and advocate wonderful care for patient care.

Program Objectives:
1. Describe the degree of injury related to various factors.
2. Explain the components of a spinal nerve assessment to maximize accuracy and efficiency.
3. Compare and contrast new anticoagulants with traditional medications, i.e. warfarin.
4. Discuss the effects of anticholinergic medications on the elderly.
5. Discuss how we are doing nationally and internationally in assuring that basic nursing interventions are accurate and timely.

Roundtable Discussions:
Join your nursing colleagues and all those interested in neurologic assessment and care at 10th Floor Office Building on Wednesday, Thursday, and Friday at 10:30 A.M.

Reception: Healing Garden
Join us Wednesday afternoon for a reception in the Healing Garden. Attendees will have the opportunity to meet Barrow Nursing Leaders, network with colleagues, and mingle with international experts in a casual, garden setting.

Tour the Barrow Neuroscience Tower
Sign-up for a tour of the Barrow Neuroscience Tower where you register for this Symposium. Attendees will visit the Nerve Center, ATC, the Epilepsy Monitoring Unit and Colleen Institute.

Pharmacology Credits Available During Post Conference:
Friday, October 23 – High Tech: High Touch: Keeping Face with Pharmacology
The post conference will focus on presentations on drug classifications and pharmacological treatments for dementia, elements, and behavioral disorders related to neurologic disease. The focus will be on how these drugs can be used for the treatment of epilepsy and seizure disorders. A comparison of the standard and new antiepileptic drug therapies for the treatment of various forms of epilepsy will provide insight to the learner on these pharmacological therapies and the related implications of care.

Baskets for Nursing Research:
**3:30 Contact Hours will be awarded for Pharmacology**

Registration & Agenda Included:
32nd Annual Barrow Neurological Institute Nursing Symposium
Leonard Goldman Auditorium
350 W. Thomas Rd.
Phoenix, AZ 85013

SYMPOSIUM LOCATION:
Barrow Neurological Institute
Leonard Goldman Auditorium
350 West Thomas Road
Phoenix, Arizona
